

Placement Committee

Introduction:

Placements are at the heart of any institute committed to quality education. Placements and corporate relations are important in terms of engaging students to the actual corporate platform. SIMSR believes in integrating the classroom exposure and studies to be levelled with corporate experience. The fervent need to build a bridge between college visions and student expectations, led to formation of Placement Committee. The Placement Committee is responsible for handling guest lectures and corporate relations, organizing and attending meetings to represent for corporate engagements. Moreover, with the right corporate exposure and applied knowledge, the placements provide the impetus to the students to move forward in the right direction. The Placement Committee at KJ SIMSR is a complete student driven body, headed by the Career Management and Corporate Relations team. Other than looking after the Final Placements and Summer Internships of the second and first year students, the Placement Committee also helps the students gain industry exposure by helping them to work on live and concurrent projects. The committee is also responsible for facilitating communication between college and corporate organizations to foster a mutually beneficial relationship.

Placement Committee

Objectives:

Our main objective is to look inwards and help integrate seamlessly the knowledge imparted in the classroom to actual knowledge required to survive in corporate culture. Moreover, it is our unsaid objective to achieve 100% placements year after year to successfully give students the corporate opportunities they're seeking. Having fulfilled these aspirations, following are a few long-term goals that we plan to achieve:

- Bridge the gap between finest corporate houses and corporate learning
- Associate with Major International Houses and engage them with various on campus activities
- Bring SIMSR in top 5 private B-schools in India by 2020

We have a short-term mission that we strive to forward year after year:

- Act as an interface between the corporate world and the batch
- Facilitate a medium to impart industry knowledge through corporate guest lectures
- Provide assistance to companies as well as students to find their best fit for the Summer Internship Program and Final Placements.

Current Leadership Team:

S. No.	Name	Contact	Email	Role
1.	Avantika Tyagi	9873426301	avantika.t@somaiya.edu	Co-Convener
