

Students' Activity Forum

The Students' Activity Forum has been a platform created for the students to celebrate non-academic benefits of being in a B-School. The focus is to become a committee solely responsible for all the cultural and non-academic events and increase the visibility of SIMSR in terms of these events in the management institutes across India.

Mission: To organize more events and workshops apart from our flagship events and also increase the participation in inter college events

Roles/Responsibilities:

- To provide a diverse environment to SIMSR students apart from the planned academic schedule.
- To make students more active in non-academic activities.
- To provide the students with opportunities to learn various extra-curricular activities by organizing workshops.

Value addition to SIMSR: SAF events help the students to break from their monotonous academic schedule and help them relax. It also helps in nurturing the hidden talents of individuals which is essential for holistic growth of students. Participating in extra-curricular events helps in shaping the overall personality of a person. Moreover, increased participation in inter college events increases the visibility of SIMSR which further increases the brand value.

Value Addition to students: The SAF team has around 25 members in all, in each academic year who organise and carry out various cultural events and activities on campus. Initiating and managing various on campus activities and brand building outside the campus develop strong managerial and networking skills among its members. It also teaches how to handle emergencies and develop decision making.

Current Leadership Team:

Sr No.	Name	Contact	Email	Role
1	Sukriti Jolly	9536825902	sukriti.j@somaiya.edu	Convener
